30 July 2020

St Basil's regrets that due to automated systems all monthly accounts were sent out on 21 July, for the next month in advance, in line with every previous month's experience, as accounts were always sent 10 days prior to the end of the month. With the order to "vacate" the home we overlooked stopping the accounts from being sent out and we unreservedly apologise for any offence that was caused by this.

St Basil's has also decided not to charge any daily fees from Wednesday 22 July, which was the date that we were directed to vacate the home and we were replaced by the government appointed replacement workforce. This will continue until we return to the home which is expected to be on 6 August. Furthermore, we will continue not charging any daily fees until our residents return to the home.

The expenses of care of our residents at the private hospitals are being met by the Commonwealth Government.

The Archdiocese has pastoral care available to our resident's relatives through the parish priests of our local churches and we encourage all affected to contact their local priest. The Archbishop's Vicar for the District of Northcote has been requested to attend to all funerals of our beloved residents who have fallen asleep. The Archdiocese has also agreed to waive all church and priest related expenses for the funerals.

We will continue co-operating with all authorities when our staff return and will work strongly in co-operation with the appointed adviser.

The Management of

St Basil's Homes for the Aged in Victoria.
